

# THE REKLAWS LONG LIVE THE NIGHT

Red sky fading  
Let's do this right  
What you're drinking's what I'm drinking  
Who's got a light  
We 'bout to burn up this nine to five from dusk  
till dawn  
Man it's on

Blue jean babies  
501s  
Music's playing, yeah we're swaying, turn this  
one up  
The stars are falling like confetti, so wish on one  
Before they're gone

Find someone, have some fun  
Till it all gets lost in the light

Singing long live the night  
It's a song coming on, one that everyone knows  
It's a bar, it's a field, it's a see where it goes  
It's a guy and girl hoping that sun don't rise  
Singing long live the night  
All the beers and the years gonna fly on by  
We're just small town stars holding on to  
midnight  
Take a sip, this is it, raise 'em on up real high  
Singing long live the night

Full moon rising  
We ain't there yet  
Every minute's a memory so drink it in  
Before you know it's over man it flies by fast  
Make it last

Take a picture while you kiss her

Make a moment for the rest of your life

Singing long live the night  
It's a song coming on, one that everyone knows  
It's a bar, it's a field, it's a see where it goes  
It's a guy and girl hoping that sun don't rise  
Singing long live the night  
All the beers and the years gonna fly on by  
We're just small town stars holding on to  
midnight  
Take a sip, this is it, raise 'em on up real high  
Singing long live the night

Long live the night

Find someone, have some fun  
Till it all gets lost in the light  
Singing long live the night
